Perched to seize the day as Oak Knoll's foremost Merlot is Blackbird Vineyards, located in the heart of the district. Purchased by entrepreneur Michael Polenske in 2003, Blackbird Vineyards is now an ultra premium label in its own right. (Fittingly, 'Merlot' is French patois for 'Little Blackbird.')

**LOT #14****Jarvis**

All Jarvis wines are produced from estate vineyards, located high above the city of Napa, in the beautifully rugged mountains between Mt. George and Milliken Canyon at the southeastern end of the Napa Valley. The vineyards are planted in gently sloping meadows one thousand feet above the valley floor. As the cool maritime air passes over the Carneros flats and begins flowing into the valley, it falls about seven degrees in temperature for the thousand feet of vertical rise. Thus the vineyards tend to be cooler by several degrees than the famous Carneros region. These cooler temperatures allow a long "hang time," permitting a long, slow fruit maturation for maximum flavor and concentration at harvest. The following is a selection of their highly rated Cabernets..

**LOT #29****Fabulous Flora Springs**

Great wine producers utilize every tool and technique at their disposal when it comes to turning premium grapes into great wine, and Flora Springs' winemaker Ken Deis is no exception. First of all, he trusts his senses: The feel of the berry in his fingers, the flavor of the fruit, the fermentation smells, and then the taste of the wine as it evolves. Ken also reaches for the edge — a different yeast, a better pumpover technique, a gentler way to handle fruit, or a reliable method of measuring extractable color and character available in the grape. He and the Flora Springs production staff are always looking to new and better ways as they strive for the best expression of the vineyards in the wines. And in order to better anticipate the challenges that each vintage brings, Ken must also understand the vineyard fruit source. So, for more than two decades he has collaborated with Pat Garvey and the vineyard team as they farm and hand-pick the best fruit that the 650 acres of Flora Springs vineyards have to offer, vintage after vintage. Over the years, Ken Deis has adopted the same degree of curiosity that inspires the entire Komes-Garvey family in everything they do. The proof of their collective success is in the consistent quality of the award-winning Flora Springs wines and in the legions of loyal Flora Springs fans all over the globe. Taste for yourself.

**LOT #32****2002 Wine Spectator "Top 100 Wines"**

"In 2002, *Wine Spectator* editors tasted 11,616 new releases, more than in any year previous. Of those, more than 2,000 rated outstanding (at least 90 points on our 100-point scale). This number represents more initial candidates for the Top 100 than ever before. Our final ranking was determined by evaluating each wine on four criteria: quality (as represented by score); value (as reflected by price); availability (measured by case production, or for international wines, by the number of cases imported); and an X-factor we call excitement." As you read, the editors did the hard work and now if you're the highest bidder, you can savor the best of the best for yourself. Lot of nine bottles includes:

**LOT #50****New York's Finger Lakes Getaway**

New York's Finger Lakes, located midway between New York City and Niagara Falls in west central New York State, represent one of the truly unspoiled vacation areas in the USA. Well known for its picturesque lakes, wineries and lush forests, the region offers many opportunities for recreational activity. It is home to 25 State Parks and a variety of museums and historic homes. The countryside is dotted with wineries, orchards, dairy farms, resorts and country inns. The Native Americans believed the Finger Lakes were formed when the Great Spirit reached out to bless the region and left behind the imprint of his hand. However, geologists report instead that the unique features of the area - the 11 long narrow lakes lying side by side, the wide valleys and the deep gorges with rushing waterfalls - were formed by the grinding action of Ice Age glaciers and are found nowhere else in the world.

Experience the Finger Lakes for yourself with a week's stay at Drs. Dan and Olga Tatpati's three bedroom, two bath home near Homer, New York on Lake Skaneateles the week of September 13-20, 2009. This home features a fully equipped kitchen, a washer/dryer and many other essentials. Best of all it's just a few miles west to Seneca Lake, home to numerous wineries and other attractions. Package also includes round trip airfare for two on AirTran Airways to Rochester courtesy of CheapOair (see certificate for restrictions, dates of use, exp. date).
